Title

| [AFTER EGRESS FROM ERCNHARES UNIFIED NET SCRIPT] |

[ADDITIONAL CHECK-INS]

[IF I AM NCS]	Additional check-ins, call now with your ITU phonetic call sign, then state your name and location.	[ACKNOWLEDGE NAMES & CALL SIGNS]
[ELSE IF I AM NOT NCS]	NCS, this is [trainer call sign]. <RESPONSE> Please call for check-ins.	

[DIGITAL OPERATION MODE CHECK]

To confirm FLdigi readiness, all stations conduct the following operations now:

a) Select op mode BPSK125 at 1500Hz.
b) Click once on the "WF" button on the lower left corner below the waterfall pane to toggle to the "FFT" spectrum pane and then listen for a tune signal at 1500Hz.
c) In the spectrum pane, a sharp needle should be displayed at 1500Hz **if** you received a good signal.
d) When called, either reply by clicking on the "Tune" button at the upper right corner of the FLdigi UI if the signal was good or verbally reply "no" if the signal was not good.
e) Once all replies have been transmitted, click on the "FFT" button twice to toggle back to "WF."

Call now if I missed you.
